Subject: Thursday CAG Meeting

Hi EPA, not sure who will be there Thursday but wanted to give you a heads up of what we are hoping to do.

This will be a re-set meeting to work to get everyone back on track and plan our path forward as a CAG. We are hoping that EPA can provide a range of updates at the beginning to talk about activities and schedules for RM10.9, FFS, new model run, public outreach for the proposed plan and anything else that is going on.

Then we will discuss our CAG schedule, use of the TASC and hopefully new TAG, our structure and membership, and any outreach and communication we need to do.

Let me know if there is anything else that you believe should be on the agenda.

thanks
Doug
